GLOSTER SPECIALITIES LIMITED

NOTES TO THE FINANCIAL STATEMENT**1. Corporate Information**

Gloster Specialities Limited, a wholly owned subsidiary company of Gloster Limited, was incorporated on 23rd February, 2011 under the provisions of the Companies Act, 1956. The Company has dealt in trading of commodities during financial year 2014-15. However the company has not done any business activities during the year.

2. Summary of significant accounting policies**2.1 Basis of preparation**

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in India under the historical cost convention, except for certain tangible assets, which are carried at revalued amounts. Pursuant to section 133 of the Companies Act, 2013 ('The Act') read with the Rule 7 of the Companies (Accounts) Rules, 2014, till the Standards of Accounting or any addendum thereto are prescribed by the Central Government in consultation with and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently these Financial Statements have been prepared to comply in all material aspects with the accounting standards notified under section 211(3C) [Companies (Accounting Standards) Rules, 2006, as amended] and the other relevant provisions of the Companies Act, 2013.

All assets and liabilities have been classified as current or non-current as per Company's normal operating cycle and other criteria set out in the schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current, non-current classification of assets and liabilities.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

2.2 Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in outcomes requiring a material adjustment to the carrying amounts of assets and liabilities in future periods.

Notes to the Financial Statements**2.3 Investments**

Long term investments are carried at cost net off provision, if any, for decline in value considered to be other than temporary in nature.

Current investments are stated at lower of cost and fair value.

2.4 Other Income

Interest income is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.

Dividend income is recognized when the right to received dividend is established.

2.5 Taxation

Current tax is determined as the amount of tax payable in respect of taxable income for the year based on applicable tax rates and laws.

2.6 Borrowing Cost

Borrowing costs are recognized as an expense in the period in which they are incurred.

2.7 Provisions & Contingent Liabilities

The Company recognizes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation and the likelihood of outflow of resources is remote, no provision or disclosure for contingent liability is made.

2.8 Earnings per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.
